<<BODYGUARD - FIRE - K>>LTD

Bulgaria, 1000 Sofia, 34 „Angel Kanchev“ str. Tel. +359 2 866 2222;

Email: bfkbg@abv.bg;

Dear Sirs,

We have the honour to present to you our company Bodyguard-Fire-K Ltd (BFK). BFK was founded in 1990 by Dipl. Engineer Dimitar Kutsarov as a sole trade company and licensed by the Sofia Directorate of the Ministry of Interior under license № 000093. According to the ruling of Sofia City Court under company file 28430/13.12.1993, the company was transformed and functions as private Ltd with a license №1000/19.12.2006 according to the Private Security Law effective as per 24 February 2004. On 10.03.2009 it was transformed into Ltd with a national security license №1412/08.06.2009.

The company's headquarters are at 34 Angel Kanchev Street, floor 2. There are also representative offices in the towns of Varna, Sliven and Haskovo and BFK operates on the territory of the whole country.

Bodyguard-Fire-K Ltd is a member of the American Chamber of Commerce in Bulgaria and the Bulgarian Business Leaders Forum.

Bodyguard-Fire-K Ltd is one of the founding fathers of Eurosecurity Group – an association of European security companies, which operates not only in Bulgaria, but also in many European countries. Therefore, ensuring the security of our clients has no territorial boundaries.

I. SECURITY ACTIVITIES

1. Physical protection of the property of individuals and legal entities:

1.1. Assessment of the State of Security of Sites and Facilities.

It is performed by the chief security experts of Bodyguard-Fire-K Ltd. according to a methodology, which is in compliance with EU requirements for the physical protection of facilities and Ordinance № 7/08.06.1998 on physical protection systems, issued by the Minister of Regional Development and Public Works (State Gazette No. 70 of 1998.). The evaluation and assessment are made after filling-in a questionnaire of 272 questions on the availability and condition of physical barriers, perimeter protection systems, access control systems, intruder alarm and alarm systems, TV systems, video surveillance, security lighting, etc.

1.2. Providing Site Security.

It is performed by specially trained security guards, aged between 20 and 45, using short and long firearm and proficient in martial arts techniques. Security services are performed according to a preliminarily drawn-up plan for protection, including: verification of physical barriers, warehouses and industrial premises, access control, control checkpoints management, control of the documents for the exported materials, raw materials and products, secret monitoring of vulnerabilities and patrol response in case of theft and fraudulent acts, control by management of the execution of the duties performed by the security guards for each post, deployment of forces and means of protection in case the operational situation.

In larger facilities a unit for internal company security is established, which provides: internal control measures for the security of the production, storage of goods and materials, tracking hidden and undeclared goods in warehouses, preventing violations of the rules on the export of property outside the protected site, taking measures to preserve company secrets and to prevent proliferation of important production information, preventive measures in order to prevent abuse and wasteful practices.

1.3. Fire Protection of Sites and Facilities

Fire protection includes fire control on site, fire prevention measures to prevent ignitions, fires, accidents, construction, operation and maintenance of manual and automatic fire alarm and fire-fighting equipment (fire instruction and training of employees, evacuation and valuables in case of fire, terrorist attack or emergency).

Sites' internal control to prevent terrorist attacks, fires and accidents is carried out by trained and specialized experts in the field through 24-hour duty, verification of compliance with the fire code, analysis and assess of the risk of fire, attacks or accidents, offering highly efficient measures for fire prevention, and indicting the offender.

2. Personal Security:

Personal body guarding is performed by specialized bodyguards, no older than 40 years, trained abroad under Eurosecurity Group. Fifty-two percent of the personal bodyguards of the company speak foreign languages.

Before taking over the personal security of a client, the security experts of the company make an analysis of the level of security of the home in which he the guarded person lives, their office and traffic routes, etc.

The personal bodyguards of the company provide to our clients protection from harm against the person, protection of their family and property, protection from harassment, the availability of unauthorized specialized investigative

techniques during negotiations, protection of VIP guests and partners of the protected person.

3. Escort and VIP Protection:

Pursuant to its contractual relationship with a group of similar companies in Europe within Eurosecurity, Bodyguard – Fire – K Ltd has created a specialized unit to perform escort and security of VIP guests.

The escort unit is provided with luxurious and well-protected limousines that each month undergo special safety tests. The team performing this activity was trained in Hungary, Germany and Moscow. Apart from the male bodyguards, the Company also has female bodyguards.

We provide securing of VIP receptions at airports, from border to border. Due to the collaboration of our foreign partners, our customers can receive these services also in Europe, USA, Russia, former Soviet republics, Greece, Turkey and other countries. We also provide security of VIP guests in water basins.

4. Mobility:

The Company has XL-class statute with VIVACOM Ltd and is a big corporative client.

The company has its own radiostations and equipment for the territory of Bulgaria.

II. DETECTIVE SERVICES

1. International Detective Services:

These include search, survey and localization of people, legal entities, companies and organizations in the USA, The Netherlands, Germany, UK, Switzerland, Italy, Hungary, Poland, Czech Republic, Romania, Russia, Turkey, Greece, Macedonia, Ukraine, Cuba, etc.

2. Company Intelligence:

Corporate/company intelligence includes collecting and analyzing information and data about competitors, corporate fraud, checking and verification of data about companies and individuals with whom our clients are to sign contracts or develop economic relationships.

3. Identification and Investigation of Individuals, Relationships and Individual Actions

III. SCIENTIFIC AND TECHNICAL DEVELOPMENT ACTIVITIES

1. Alarm systems - implementation and use of the latest generation of technology programmes for complete monitoring of the protected site/facility.
2. Construction of signaling audio- and video- systems in the neuralgic points of the site/facility; equipment and maintenance.
3. Fire alarm systems - assessment, supply, construction, equipment and maintenance.
4. Checking of offices, homes, cars, etc. against audio-surveillance and tracking.
5. Monitoring of Internet access and connections of children and minors to ensure their security.

IV. PROVIDING SECURITY FOR EVENTS

- 1. Organizing and providing security of special events as wedding parties, VIP cocktail parties, presentations.**
- 2. Providing limousines and luxury vans**
- 3. Providing the participation of Bulgarian and foreign show stars**
- 4. Drawing-up of special agendas and routes in compliance with the requirements for providing security to VIP guests and events.**

For over twenty-six years now Bodyguard-Fire-K Ltd. fulfills its contractual relationship with its clients at a very high professional level and successfully, providing the full range of security services.
